About us

Stuart Scanlan B.V.Sc

Stuart and Elizabeth Scanlan opened WELLINGTON POINT VETERINARY SURGERY in October of 1995. The ethos of WPVS is to provide the highest quality of care in Veterinary Medicine to clients who cherish their pets as valued companions and integral parts of the family. We will achieve this aim through excellent service and the use of up to date diagnostic tools, proven treatments, top quality foods and, perhaps most importantly, through the use of effective preventative health systems.

We have a loyal client base which permits us to practise modern Veterinary Medicine. This provides client and patient satisfaction. Stuart and his staff aim to provide professional service along with modern medicine and

diagnostic tools in order to achieve the best possible outcomes for our patients.

Wellington Point Veterinary Surgery is a family business. Ben Holder, Elizabeth's brother, is the Practice Manager and deals with all business matters. This allows Stuart to concentrate on Veterinary Medicine and not be distracted from providing professional patient care.

Our open plan waiting room aims to provide a relaxed and friendly atmosphere for our patients and clients.

In mid 2006 we upgraded our business management software which gave us the ability to expand our reminder system for our clients. We are now able to offer email reminders and SMS reminders for surgery appointments and medications. We also now offer an SMS when your loved one is recovering from surgery and then later when they are ready to go home.

We encourage you to speak to one of our trained staff about any of the services we provide or simply send a quick email, and one of our staff will be happy to resolve any queries or issues. Please visit our website www.wpvs.com.au for all the latest news and specials, and while you're there why not take our virtual video tour.
